

## My Favorite Homemade Liquid Laundry Detergent!

**ingredients:**  
**1 Bar Fels Naptha  
Soap**  
**Arm and Hammer  
Washing Soda**  
**20 Mule Team Borax**

Store in any used plastic laundry  
soap container or leave in pail...

For hard water:  
add an extra 1/2 to 1 cup of borax  
per wash load.

otherwise use 1 cup for light  
washes and 1-2 cups for extra  
dirty and super sized washes.

add 1/2 cup of bleach or a little  
bluing for whites

this soap does not suds and is  
healthy for your washer and  
plumbing systems

rub Fels Naptha Bar into stains..

the liquid will thicken and lumps  
will happen...just stir occasionally  
and lumps will dissolve in wash  
water to no consequence

works in cold and hot washes....

may alleviate soap allergy  
symptoms

## Directions:

**Grate 1 bar of Fels Naptha Soap into the top  
of a double boiler and melt.**

**Pour 1 cup Arm and Hammer WASHING  
Soda and 1 Cup 20 Mule Team Borax into a  
5 gallon plastic pail.**

**Pour 1 Gallon of very hot water into the pail.**

**Stir melted Fels Naptha into the pail and  
whisk until mixed. Add very hot water until  
pail filled within a couple of inches from top  
(3-5 gallons total) and whisk again.**

**Add a few drops of any scent or not. We  
like clove oil, bay oil, lavender...**

## Year's Supply

A typical family of 4 will need 2  
boxes each of borax and Washing  
soda and 16 bars of Fels Naptha, if  
you wash everyday.
